CONSUMPTION CURED!

DR. ROGERS' SYRUP OF LIVERWORT TAR

HOPE EVER

A. L. SCOVILL & CO.

AND

CANCHALAGUA;

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to

CONSUMPTION.

READ! READ!!

This medicine is just what it is declared to be above. A remedy for the complete cure of all those affections of the Throat and Lungs which if neglected, always end in CONSUMPTION. It is not a worthless, catch-penny article made just to sell like many of the common nostrums of the day, but it is a strictly scientific Preparation—the original recipe having been furnished by an eminent Physician, (the late Prof. Rogers,) and that still further improved by one of the present proprietors who is himself a regular educated Physician, a graduate of the University of Pennsylvania. It is composed of the choicest articles in the vegetable kingdom, most of them of long tried value and established reputation and some of them entirely new, particularly the CANCHALAGUA, a plant of most wonderful medicinal virtues, lately introduced into this country from California. The Recipe has been shown to the most skilful Physicians who have universally approved of it, and will be shown to any Physician who desires to see it, upon application either to the Proprietors or their Agents. It has been used in multitudes of cases and is strongly recommended by Physicians, even Professors in our Medical Colleges, Ministers of the Gospel, Judges, Lawyers, Merchants, Mechanics, &c.—a conclusive proof that there is no quackery or deception about it, but that it is a medicine of most uncommon virtue and efficacy.

PAMPHLETS.

As no ordinary sized advertisement can begin to do justice to the merits of this article, the Proprietors have embodied in a pamphlet form the history of this Medicine—the description, nature &c. of its principal ingredients—the effect they are designed to have upon the human system—and above all the incalculable amount of good which it has done. They design to circulate this pamphlet extensively, but should any one be overlooked, they are earnestly desired to call upon the Agents named below and procure one gratis. The hints on page 7th may be worth to yourself or family THOUSANDS OF DOLLARS, and it will introduce you to a mass of testimony in its favor, which is perfectly irresistible.

Such being our confidence in its virtues we are willing to warrant the Medicine in every recent case, (if used according to the Directions,) and where the person is not satisfied that he is not deriving benefit from it by returning the bottle within 24 hours' time

THE MONEY

will be refunded. ☞ See page 3d of the Pamphlet.

For sale wholesale and retail by A. L. SCOVILL & CO., Proprietors, at their Principal Office No. 35 Warren St., New York, to whom all orders for the Medicine and letters relating to agencies, must be addressed post paid.

☞ Be sure to ask for Dr. A. Roger's Syrup of Liverwort Tar and CANCHALAGUA, and let no other be palmed on to you.

Caution.—None genuine unless there is on the blue wrapper a note of hand signed with a Pen, by A. L. SCOVILL & CO.

For sale in Bangor, by LADD & INGRAHAM. Also—for sale by G. McFARLAND, SARGENT & EMERSON, H. B. HALL, Bangor; Horace Bunker, Orono; R. F. Kensell, Oldtown; A. J. French, Dexter.

PRICE.—In large bottles, $1,00, or six bottles for $5,00.

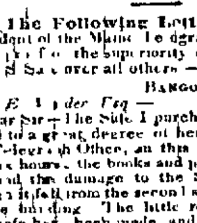
WARRANTED NOT TO INJURE BOOKS OR PAPERS BY DAMPNESS.



THESE are the only Safes (WILDER'S PATENT) that have in every instance preserved their contents when exposed to large fires, like the burning of the Tribune [illegible] g office in New York, [illegible] and many others, too numerous to mention.

The above Safes are manufactured and for sale by JOHN F. WILDER, Boston, and for sale in Bangor, at the manufacturers prices by
FISKE & DALE.

☞ The Following Letter from the Superintendent of the Maine Telegraph Company, is another proof of the superiority of JOHN E. WILDER'S Safe over all others:—

BANGOR, Oct 24, 1849

John E. Wilder, Esq.—

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the fire six hours, the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.

Respectfully yours, JAS EDDY

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me., to the Editor of the GOSPEL BANNER.—

DOWN'S ELIXIR,—A CURE.

BR. DREW—being anxious to do good to my fellow beings, as I have means an opportunity, I wish to state, through the Banner, that in my sickness last winter and spring I received very great benefit from the use of N. H. DOWN'S ELIXIR.

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office. My cold continued until I was completely prostrated by bleeding, which created a dry, hard cough. My appetite failed, my strength wasted and my flesh disappeared. Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it, and continued its use until I had taken three bottles, when I became satisfied that it contained opium, making a large amount of physic necessary, and also contracting the very organs that should be relaxed. I used other kinds of patent medicines but with no good effect. Seven weeks I continued gradually to sink under my disease, at the expiration of which time, I was extremely weak, my skin dry and husky, and my feet and hands cold most of the time. I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach. My tongue was coated with a thick, white fur, bowels very irregular and costive, hectic fever, night sweats, dry, hard cough, difficulty of breathing and low appetite. My stomach at this time was so sore and weak that it was with difficulty I could stand erect. This was my situation when I commenced the use of N. H. DOWN'S ELIXIR.—And to my great joy, and the greater joy of my friends, I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy moisture upon the skin. I used three bottles in two weeks, which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and greatly improved my strength. I continued its use six weeks, using six bottles, at which time I was able to resume my ministerial labors. I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed.

I have given it to my children in colds, and in a case of measles, and it has proved as it is recommended to be.

I therefore cheerfully recommend N. H. DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended. Yours truly, J. L. TUTTLE

Camden, August 1849.

Facts deduced from the foregoing letter.

1st. Down's Elixir is laxative—curing costiveness while other medicine increases that difficulty.

2d. It is perspirant. It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system.

3d. It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system.

4th. It cures colds—is an effectual remedy for the measles, and proves ALL IT IS RECOMMENDED TO BE.

It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE, G. W. LADD, CURTIS & PERKINS, A. P. GUILD, WM. MANN, G. McFARLAND, Bangor; L. S. Smith, J. W. Curtis & Co., Hampden; Chas. Johnson, J. B. Chick, Frankfort; H. P. Fifield, Bucksport; J. Hooper Jr., S. P. Hatch & Co., Castine; R. Nourse, Geo. THE VEGETABLE PULMONARY BALSAM

Is the Most Highly Approved and Popular Standard Medicine now in General Use for

COUGHS, COLDS AND CONSUMPTIONS, Asthma, Pleurisy, Phthisis, Spitting of Blood, Hooping Cough, Bronchitis, and all Pulmonary Affections and Diseases of the Lungs and Chest.

It is thus spoken of by eminent Physicians. One says—"For the above complaints it is superior to [illegible]." Another—"It has been used with wonderful success, and has a superiority over every kind of medicine used." Another—"I can with confidence recommend it." Another—"It has been used with complete success, and I am satisfied that it is a valuable medicine." Another—"It is a safe, convenient, and very efficacious medicine."—Another—"It has never, to my knowledge, disappointed the reasonable expectations of those who have used it." Another—"It is equal if not superior to any other medicine within my knowledge."

Extract from a letter dated Dayton, Ill., April 13, 1849.—"It was first introduced into my family by a celebrated Physician, some ten years ago, and such was the benefit my wife derived from it that we have not been without it in our house since. I have also recommended it to at least fifty different persons since, for Affections of the Lungs, and I do not know of a single case in which it did not give immediate relief and some were cured after being given up by their Physicians."

☞ BEWARE OF COUNTERFEITS AND IMITATIONS, such as CARTER'S COMPOUND PULMONARY BALSAM, AMERICAN PULMONARY BALSAM, and others, in part, bearing the name. Enquire for the article by its whole name, the

"VEGETABLE PULMONARY BALSAM"

and see that it has the written signature of WM JOHN CUTLER upon a yellow label, on the blue wrappers. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."

Prepared by REED & CUTLER, Importers and Wholesale Dealers in Medicines, Paints, Chemicals, and Dye Stuffs, 33 India Street, Boston, and sold by Druggists, Apothecaries, and Country Merchants generally. For particulars and recommendations see a Pamphlet accompanying each bottle. Price 50 cents.

AGENCY FOR BUSINESS
With U. S. Patent Office.
WASHINGTON
NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of 37.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, where by a Patent may be procured about six weeks earlier, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions and of consulting in respect to them; matters, in general, of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

HONEY! HONEY!!

BY BEES FED.

WHO ever supposed that the management of Bees and the making of Honey would be rendered a certain and profitable business? Yet it has been, and can now be done by all wishing to engage in the business.

A citizen of this State has invented a mode of treatment by which Bees can be managed without difficulty, and at a small expense, honey made at the rate of from three to four hundred pounds per swarm, each season. The right of adopting and using this mode has been secured by Letters Patent, and the subscriber has purchased that right for the County of Penobscot, so that he now offers the same to others, either by town or individual rights as may best suit purchasers, and on such terms as bring it within the reach of all wishing to engage in it.

The advantages gained by this Patent, are—

1st, A perfect command of the Bees and a large increase of the swarms, without the trouble of hiving.

2d, A full security against the danger of robbing by neighboring Bees.

3d, The honey is of a better quality and much more in quantity per swarm, than has ever been made by Bees managed in any other manner. This is done by feeding, as by that means the Bees is not only rendered independent of flowers for his supplies, but able to give his whole time to the work of making and storing his honey.

4th, The opportunity is afforded of taking the honey at any time without disturbing the Bees.

Lastly. It furnishes a fine opportunity for all professional men of small salary to make a good addition to their income, and to aged persons and persons of feeble health to support themselves independently and that to with little or no labor.

Such being the advantages gained by this Patent the subscriber recommends it to the public and assures all wishing to purchase that on trial they will find it answering their highest expectations.

His residence is at this place, where he will be happy to answer all those who may address him (post paid) on the subject.

GREAT IMPROVEMENT IN
Planing, Tongueing, and Grooving Lumber.

JOSEPH P. WOODBURY'S
Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same. This machine will plane 6 000 feet of boards to any uniform thickness in one hour producing a better finished surface than it is possible to plane by any other means now known, not excepting the hand plane, and is peculiarly adapted to plane and joint cupboards, or weather boarding, and will do the work faster and better than any machine heretofore invented. This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder, now in common use. The construction and organization of this machine is different from any other now in use. Communications for further particulars cheerfully responded to by addressing the subscriber (post paid,) Boston, Mass.

One of the above Planing Machines may be seen in operation by calling on the Patentee.

DOCT. MARSHALL'S
Aromatic Catarrh and Headache Snuff.

THIS article is the best preparation in the world for a cold in the head, the HEADACHE, and all CATARRHAL AFFECTIONS.

It cleanses, strengthens, and restores to healthy action all those organs and membraneous parts [illegible] the head, the obstruction of which produces pain in the fore head and region of the eyes, a sort of snuffing in the nose, a sense of matter dropping from the head into the throat, &c. All these it cures easily and speedily, and the most confirmed cases of CATARRH, it usually cures in from two to four months.

It is also an unfailing cure for the NOSE BLEED, if persevered in but a short time.

Abdominal Supporter.

☞ WILSON'S IMPROVED PATENT.

THE subscriber, having purchased the right of selling the above instrument for the County of Penobscot, hereby cautions all persons against selling any other supporter in general and Fitch's in particular, being an infringement on Wilson's Patent, granted May 26 1843 for twenty years, and a reward of ten dollars will be paid to any person who will furnish sufficient evidence to sustain an action of trespass against the above right after this date.

This improved Supporter has but recently been fairly before the public. The right for selling it is offered on condition, that in case it is not what it purports to be, the purchase money will be refunded. In Constipation of the Bowels, Prolapsus Uteri, "Falling or bearing down" of the Womb, Fluor Albus, Sinking at the Stomach, Weakness, and Pains in the Side, and Small of the Back, there is probably not a more effective remedy.

This Supporter should, and doubtless will be in the hands of every scientific Surgeon and Physician. It is a mechanical aid, and will perform that which medicine fails to achieve.

The attention of Physicians and Surgeons throughout this county is invited to the above instrument, and rights will be sold to towns and districts and Supporters furnished on the most reasonable terms. For a single Truss, price $5 00.

Physicians in the country may command one post paid giving the number of towns and inhabitants for which they wish to purchase the right and terms will be promptly given and a Supporter sent as a sample if requested for examination.

SATURDAY, FEBRUARY 16, 1850.

How can the People of Maine advance her Prosperity.

A correspondent of the Portland Umpire in treating of the subject of steamboat connection with New York, gives a good answer to the question at the head of this paragraph. That they can do it by directing the energies and the resources of the State, into the most productive channels. By encouraging home industry and a proper State policy. We must create a home market, and, as far as possible, produce the articles we consume. Our greatest misfortune in Maine, has been the want of a commercial capital. The money earned has been principally spent elsewhere. We have supplied the raw material for the work-shops and the laborers of Massachusetts,—they have added to its value in the process of manufacture, and sent it back to us to be consumed at a greatly enhanced price. It is this policy that for the last ten years has made Massachusetts rich at our expense. Our policy should be; to send abroad our leather, our lumber and our wool, in the form of manufactures, and 'to purchase our supplies of foreign goods at first cost, or as near to that as possible.'

That is all very plain and very true and yet it has strangely happened that many persons have a prejudice against any such doctrine because they have been taught that it is not accordant with the wishes of their political Bell weathers. It is this policy and that alone which can give to Maine the benefit of a full development of her natural resources and secure to her a fair share of the increase of population, by calling back the sons and the daughters of Maine now employed elsewhere, and giving them an equal chance for labor near their own homes.

CENTRAL AMERICA.—The Journal of Commerce states that the steamer Cherokee, which arrived at New York on Tuesday, brought intelligence that the British war steamer Gorgon, had entered the port of Amalpo, Tigre Island, and re-embarked the British garrison on that Island, pulled down the English flag, hoisted that of Honduras, and saluted it with 60 guns. The plan of the British seems to be, to restore things to the position in which they stood previous to the seizure of the Island by Mr. Chatfield's authority.

☞ We learn that Wm. S. Brown, son of Theodore S. Brown, Esq of this city, a passenger on board the ship Charles Cooper for California, which sailed from here last fall, was washed overboard when about three weeks out and drowned. His parents are greatly distressed at this sad news which they received on Thursday by Mr. F. W. Carr, who went out in the ship but who left her at Rio and has returned on account of the sea voyage being unfavorable to his health.

☞ A passenger on board the ship Charles Cooper, writing from Rio Janeiro, states that —the Gold Hunter had a passage of 61 days, and left Jan. 14, for San Francisco. The Cantero and Glencoe had not arrived at Rio and it was thought that the Glencoe had continued her passage out without stopping.

The Washington correspondent of the N. Y. Express says it will be a long while before the California Senators will get their seats, and that there is yet to be a hard fight in the Senate about the Constitution of California. He expects that nearly every Southern Senator and several from the Free States, among them Mr. Bradbury of Maine, may quite probably vote against it.

The Newburyport Herald reports that Mr. J. D. Drown, watchmaker, was attacked by two persons, as he was entering his gate in the evening, with a trunk of watches and jewelry. He received one or more blows on the head, but not being stunned, he was able to alarm the family, and the robbers fled.

☞ The Boston Traveller states that the Sons and Daughters of Maine, (with others) were to have a social levee on Friday evening, at the hall over the Fitchburg Railroad Depot, the proceeds of which were to be appropriated for the benefit of Captain Kimball and his colony of the "California Packet."

Col. Loring's Oregon Regiment of Mounted Riflemen which arrived at Vancouver in October, has taken quarters in Oregon city, the soldiers are in good health and in fine spirits. While the troops were descending the Columbia, a raft having on it eight men belonging to the wagon train, went over the Cascade Falls, when six of the men were drowned.

Mr. Clingman, in a late speech, said a hundred thousand dollars' worth of slaves ran away from the State of Delaware every year. One of the U. S. Senators from Delaware says half of the sum mentioned would be sufficient to purchase all the slaves in the State.

Some curious person has been calculating the area of the territory of the United States not yet organized into States, and finds that we have domain enough for forty-six and a half States as large as Pennsylvania. Of these, thirty-five will lay north of 36 deg. 30 min.

☞ The editor of the Skowhegan Clarion says the thermometer in that village on Feb. 6 stood at *forty* degrees below zero. That was rather cold for down-east, neighbor. It was so cold here that we did not dare report it, but if we had it would not have reached yours.

☞ Remember good friends, that this is Valentine week, and you may be sure to find those warranted to be effective, by calling at the bookstores of Lewis Bugbee, or Duren.

☞ The active men of East Thomaston have recently raised one thousand dollars for the purchase of a Library

☞ The Item-man of the Thomaston Gazette states that a new steamer, called the Boston, is to run on the Penobscot this season.

Proceedings of Public Meeting.

The meeting held Feb. 7, to consider what plan should be adopted to protect the community against the depredations of vagrant and vicious children, met agreeable to adjournment at the City Hall on Thursday evening, Feb. 14th.

Oliver Frost, Esq, chairman of the committee appointed Feb. 7th, stated to the meeting that the committee were unable to agree unanimously upon a report and there would probably be presented for the consideration of the meeting a majority and minority report, and that M. L. Appleton, Esq, was by the committee directed to submit the majority report. Mr Appleton then read the report, which was accepted; so far as to bring it before the meeting.

The minority, through J. S. Sayward, Esq, submitted a minority report.

Both reports were discussed by Messrs Nye, Appleton, Frost, Emerson, Sayward and Wakefield.

On motion of Mr Nye, voted, that both reports be published in the papers of the city and that when this meeting adjourn it be to meet at this place on Thursday evening Feb. 21st.

HENRY CALL, Chairman.
S. C. HATCH, Sec'y.

An old man, employed by the London and North Western Railroad Company, has, during a period of three years, fed a sparrow, which has become so much attached to him as to regularly attend at his whistle.

☞ The weather has been very mild, thawy and spring-like for several days and the sleighing has been greatly impaired in this vicinity.

☞ The telegraphic wires were not fruitful last night.

☞ The Boston Journal, one of the ablest and consistent Whig papers in New England, thus speaks in reference to the present aspect of affairs which now agitate the country:

> The message of President Taylor and the speech of Henry Clay, have made, we sincerely believe, a favorable impression upon the public mind, and the time has arrived when the issues between the North and the South, which seriously threaten a dissolution of the Union, may, with a united effort, be amicably and peaceably adjusted. For one, we are not wedded to any particular course of action to effect the object for which the North is contending, and we shall be content with any scheme of concilliation which will secure the blessings of freedom to the territories. The argument of Mr. Clay, that slavery cannot exist in the new territories, although in our opinion not conclusive, is still entitled to attention as suggestive of a mode of compromise which will be less offensive to the South than the absolute enactment of the restrictive clause, whilst at the same time securing the cherished desires of the North. It is for the South to decide whether it is expedient to jeopardise the peace of the Union in the pursuit of an object, the attainment of which can be of no real benefit, and which is a veritable abstraction. And it is no less the duty of the North to be satisfied with the exclusion of Slavery, without making the manner of that exclusion unnecessarily offensive to the South.
>
> Two schemes of compromise for the adjustment of existing difficulties in relation to the slavery question are now before Congress—that of President Taylor, and the one offered by Mr Clay. The plan of Mr. Clay is more comprehensive than that of the President, and per- great questions at once. Of the two we consider the plan of the President the least objectionable. The principal argument, which has been urged against it is that it leaves the question open for future agitation. But if the immediate settlement of the question is attended with danger, it is better to put off the evil day, provided the cause of freedom does not suffer by the delay. The final settlement of the question cannot be attended with greater difficulties at a future day than at present, and delay will afford opportunity for passion to cool, and reason to reassert her sway. But our legislators are not necessarily confined to these two modes of settlement. We believe that a plan might be found which would obviate the objections of each. The lists are open, and Webster and Benton, with other equally patriotic statesmen, may gather enduring laurels in the great contest *for the preservation of the Union.*

LOSS OF BARK MARIETTA.—The Bermuda Herald of 24th ult. says —

On Sunday last, the bark Marietta, Captain M. B. Vannard, from Bath, Maine, bound to Havana, laden with shooks, ran on shore in a gale, on the extreme end of Long Bay, off the west end of these Islands, and became a wreck There is every probability of the sails, rigging, and cargo being saved, Capt. Vannard has lost his vessel in the performance of a truly benevolent and highly praiseworthy act. He had saved the lives of the officers, passengers, and crew, amounting in all, to seventy-six persons, of the L. Z. of Boston, then in a sinking state, and intended to land them on these islands, in attempting which he unfortunately ran his vessel on the rocks which lay hidden some distance from the land. The L. Z. was from New York for Liverpool, and had sprung aleak in a severe gale.

Congress.

WASHINGTON, Feb. 13.—Mr. Berrien's closing remarks in the Senate yesterday, were a continuation, in general, of close legal argument of the question, including, in the main, views expressed by him during the last Congress, and applying those views, in part, to Mr. Clay's resolution.

He particularly adverted to Mr. Clay's remarks upon the implied Faith to Maryland and Virginia that slavery should not be abolished by Congress in the District ceded by them; and called upon the Senate also to keep in mind the implied faith towards all the South.

Mr. Berrien declared the belief that the North would not abolish slavery to-morrow, if it had the power, because it entered too largely into their prosperity.

The North considered slavery a sin, but that, as long as it is confined to the Southern States, it is *their* sin, and the North does not participate in it.

He had no idea of the dissolution of the Union; and if it did come, his feelings, sympathies and efforts would all be in behalf of the people with whom he had identified his interests.

HUMBOLT ON CALIFORNIA GOLD.—A correspondent of the N. Y. Commercial Advertiser, writing from Berlin, gives an account of a visit to Humbolt, and says:

He expressed the opinion that the probable produce of the California gold mines had been over estimated for that up to the present time the yield had been much less than that of the Russian mines, the latter having been often annually $30,000,000 No such large pieces found in California One solid piece of eighty pounds had been found in Russia, and many of forty, thirty twenty, and sixteen He was much surprised that no platina had yet been found

Mrs Thompson, did give, as we are informed, two cuts with a whip, on the back of the editor of the Jeffersonian.—Mercury

SPEECH OF MR. CLAY
ON THE SLAVERY QUESTION.

(Continued.)

Mr Clay resumed. There is the resolution, sir, and you see it is precisely as I stated. After all this excitement throughout the country had reached to such an alarming point, that the Union itself was supposed to be in the most imminent peril and danger, all parties were satisfied with a declaration of an incontestable principle of constitutional law, that when the constitution of a State is violative in its provisions of the constitution of the United States, the constitution of the United States is to be paramount, and the constitution of the State in that particular is a nullity and void. That was all. They wanted something for a justification of the course which they took. There is a great deal of language there of a high sounding character—it shall be a fundamental act—it shall be a solemn and an authentic act—but at last, when you come to strip it of all its verbiage, it is nothing more than the principle I have announced of the paramount character of the constitution of the United States over any local constitution of any one of the States of this Union.

Mr President, we may draw from these transactions in our history this moral, I hope: Now, as then, if we will only suffer our reason to have its scope and sway, and if we will still and hush the passion and excitement which have been created by the occasion, difficulties will be more than half removed in the settlement, upon just and amicable principles, of the question which unhappily divides us at this moment.

But, sir, I wish to contrast the plan of accommodation which is proposed by me with that which is offered by the Missouri line, to be extended to the Pacific ocean, and to ask gentlemen from the South, and from the North, too, which is most proper, which most just; to which is there the least cause of objection?—What was done sir, by the Missouri line? Slavery was positively interdicted north of that line. The question of the admission or exclusion of slavery south of that line was not settled.—There was no provision that slavery should be admitted South of that line. In point of fact it existed there. In all the territory south of 36 deg. 30 min., embraced in Arkansas and Louisiana, slavery was then existing. It was not necessary, it is true, to insert a clause admitting slavery at that time. But, sir, if there is a power to interdict, there is a power to admit; and I put it to gentlemen from the South, are they prepared to be satisfied with the line of 36 deg. 30 min., interdicting slavery north of that line, and giving them no security for the admission of slavery south of that line? The Senator from Mississippi (Mr Davis) told us the other day, that he was not prepared to be satisfied with anything short of the positive introduction of slavery—[A Senator. Recognition.—a position recognition of slavery south of the line 36 deg. 30 min. Is there any body who believes that you can get twenty votes in this body, or a proportionate number in the other House, to declare in favor of the recognition of slavery south of the line of 36 deg. 30 min.? It is impossible. All that you can get—all that you can expect to get, all that was proposed at the last session—is action, north of that line, and non-action as regards slavery south of that line—its interdiction upon the one side, with no corresponding provision for its admission upon the other side of the line of 36 deg. 30 min.

Now, sir, when I came to consider the subject, and to compare the provisions of the line of 36 deg. 30 min.—the Missouri compromise line—with the plan which I have proposed for the accommodation of this question, said I to myself, if I offer the line of 36 deg. 30 min. to interdict the question of slavery north of it, and to leave it unsettled and open south of it, I offer that which is illusory to the South—I offer that which will deceive them, if they sup- line. "It is better for them—I said to myself—it is better for the South that there should be non-action as to slavery, both north and south of the line—far better that there should be non-action both sides of the line, than that there should be action by interdiction on the one side, without action for the admission upon the other side of the line. Is it not so? What is there gained by the South, if the Missouri line is extended to the Pacific, with the interdiction of slavery north of it? Why, sir, the very argument which has been most often and most seriously urged by the South has been this: we do not want Congress to legislate upon the subject of slavery at all; you ought not to touch it, You have no power over it. I do not concur, as is well known from what I have said upon that question, in this view of the subject; but that is the southern argument. We do not want you, say they, to legislate upon the subject of slavery. But if you adopt the Missouri line, and thus interdict slavery north of that line, you do legislate upon the subject of slavery, and you legislate for its restriction, without a corresponding equivalent of legislation south of that line for its admission; for I insist that if there be legislation interdicting slavery north of the line, then the principles of equality would require that there should be legislation admitting slavery south of the line.

Sir, I have said that I never could vote for it myself, and I repeat that I never can, and never will vote, and no earthly power will ever make me vote, to spread slavery over a territory where it does not exist. Still, if there be a majority who are for interdicting slavery north of the line, there ought to be a majority, if justice is done to the South, to admit slavery south of the line. And if there be a majority to accomplish both of these purposes, although I cannot concur in their action, I shall be one of the last to create any disturbance; I shall be one of the first to acquiesce in that legislation, although it is contrary to my own judgment and to my own conscience.

I hope then, sir, to keep the whole of these matters untouched by any legislation of Congress upon the subject of slavery, leaving it open and undecided. Non-action by Congress is best for the South, and best for all the views which the South have disclosed to us from time to time as corresponding to their wishes. I know it has been said with regard to the territories and especially has it been said with regard to California, that non-legislation upon the part of Congress implies the same thing as the exclusion of slavery. That we cannot help. That Congress is not responsible for. If nature has pronounced the doom of slavery in these territories—if she has declared by her immutable laws that slavery cannot and shall not be introduced there—who can you reproach but Nature and Nature's God? Congress you cannot. Congress abstains. Congress is passive. Congress is non-acting, south and north of the line; or rather if Congress agrees to the plan which I propose, extending no line, it leaves the entire theatre of the whole cession of these Territories untouched by legislative enactments, either to exclude or to admit slavery. Well, sir, I ask again, if you will listen to the voice of calm and dispassionate reason—I ask of any man of the South, to rise and tell me if it is not better for that section of the Union, that Congress should remain passive upon both sides of the ideal line, rather than that we should interdict slavery upon the one side of that line, and be passive upon the other side of that line?

Sir, I am taxing both the physical and intellectual powers which a kind Providence has bestowed upon me too much, and I will endeavor soon to conclude; for I do not desire to trespass upon the time and patience of the Senate.

Mr Mangum here offered to make a motion to adjourn.

Mr. Clay said, No, sir, no, sir; if the Senate will bear with me, I think I can go through with it better to-day than I could to-morrow.

Sir, this Union is threatened with subversion. I wanted, Mr. President, to take a very rapid glance at the course of public measures in this Union presently. I wanted, however, before I did that, to ask the Senate to look back upon the career which this country has run from the adoption of the constitution down to the present day. Was there ever a nation upon which the sun of heaven has shone which has exhibited so much of prosperity as our own? At the commencement of this government, our population amounted to about four millions.—It has now reached upwards of twenty millions. Our territory was limited chiefly and principally to that bordering upon the Atlantic ocean, and that which includes the southern shores of the interior lakes of our country.—Our territory now extends from the northern provinces of Great Britain to the Rio Grande and the Gulf of Mexico; from the Atlantic ocean on the one side to the Pacific on the other—the largest extent of territory under one government existing upon earth, with only two solitary exceptions. Our tonnage, from being nothing has arisen to a magnitude and amount to rival that of the nation which has been proudly called the mistress of the ocean. We have gone through many wars; one with that very nation from whom, in 1776, we broke off, as weak and feeble colonies, when we asserted our independence as a member of the family of nations. And, sir, we came out of that struggle—unequal as it was, armed as she was at all points in consequence of the long struggles of Europe, and unarmed as we were at all points, in consequence of the habits and nature of our country and its institutions—we came out of that war without the loss of any honor whatever; we emerged from it gloriously. In every Indian war—we have been engaged in many of them—our arms have been triumphant. And without speaking at all as to the causes of the recent war with Mexico, whether they were right or wrong, and abstaining from the expression of any opinion as to the justice or propriety of the war when it commenced, all must unite in respect to the gallantry of our armies and the glory of our triumphs. There is no page—there are no pages of history which record more brilliant successes! With respect to the one in command of an important portion of our army, I need say nothing in praise of him who has been borne by the voice of his country to the highest station in it, mainly on account of his glorious military career. But of another military commander, less fortunate in other respects, I must take the opportunity of saying that for skill—for science—for strategy—for bold and daring fighting—for chivalry of individuals and of masses—that portion of the Mexican war which was conducted by the gallant Scott, as chief commander, stands unrivalled either by the deeds of Cortes himself, or by those of any other commander in ancient or modern times.

Sir, our prosperity is unbounded. Nay, Mr. President, I sometimes hear it said that it is the very wantonness of our prosperity that leads us to these threatening ills of the moment, that restlessness, and these erratic schemes throughout the whole country, some of which have even found their way into legislative halls. We want, I fear, Mr. President the chastising of Heaven to bring us back to a sense of the immeasurable benefits and blessings which have been bestowed upon us by Providence.—At this moment, with the exception of here and there a particular department of the manufacturing business of the country, all is prosperous and happy, rich and poor. Our nation has grown to a magnitude in power and in greatness, to command the respect, if it does not call for the apprehensions of all the powers of the earth with which we can come in contact. Sir, do I depict with colors too lively the prosperity which has resulted to us from the operation of the constitution under which we live? Have I exaggerated in any degree?

Now, sir, let me go a little into detail as to the sway in the councils of the nation, whether of the North or the South, during the sixty years of unparalleled prosperity we have enjoyed. During the first twelve years of the administration of the government, northern counsels rather prevailed;—and out of that sprung the Bank of the United States; the assumption of the State debts; bounties to the fisheries; protection to the domestic manufactures—I allude to the act of 1789; neutrality in the wars of Europe; Jay's treaty; alien and sedition laws; and a *quasi* war with France—I do not say, sir, that those leading and prominent measures which were adopted during the administration of Washington and the elder Adams were carried exclusively by northern counsels. They could not have been but were carried mainly by the sway which northern counsels had obtained in the affairs of the country.

So, sir, with the latter period, for the last fifty years I do not mean to say that southern counsels alone have carried the measures which I am about to enumerate I know they could not exclusively have carried them; but I say they have been carried by their preponderating influence, with co-operation, it is true, and large co-operation, in some instances, from the northern section of the Union. And what are those measures, during the fifty years that southern counsels have preponderated? The embargo and other commercial restrictions of non-intercourse and non-importation; war with Great Britain; the Bank of the United States overthrown; protection to domestic manufactures enlarged and extended; (I allude to the passage of the act of 1815 or 1816;) the Bank of the United States re-established; the same bank put down; (re-established by southern counsels and put down by southern counsels;) Louisiana acquired; Florida bought; Texas annexed; war with Mexico, California and other Territories acquired from Mexico by conquest and purchase, protection superseded and free trade established; Indians removed west of the Missouri; fifteen new States admitted into the Union. I may very possibly have omitted some of the important measures which have been adopted during the latter period of time to which I have referred—the last fifty years; but these I believe are the most prominent.

Now, sir, I do not deduce from the enumeration of the acts of the one side or the other any just cause of reproach to the one side or the other, although one side or the other has predominated in the two periods to which I have referred. It has been the work of both, and neither need justly reproach the other; but I must say in all candor and sincerity that least of all ought the South to reproach the North, when we look at the long list of measures we have under our sway in the councils of the nation, and which have been adopted as the policy of the government, when we reflect that even opposite doctrines have been prominently advanced by the South and carried A bank of the United States was established under the administration of Mr. Madison, with the co operation of the South. I do not, when I speak of the South or North, speak of the *entire* South or North—I speak of the prominent and larger proportions of the South or North. It was during Mr Madison's administration that the Bank of the United States was established. The friend (Mr Calhoun) whose sickness I again deplore, as it prevents us from having his attendance here upon this occasion, was chairman of the committee of the House of Representatives, and carried the measure through Congress. I voted for it with all my heart, although I had been instrumental in putting down the old Bank of the United States. I had changed my mind; and I co operated in the establishment of the bank of 1816. That same bank was put down by southern counsels, with General Jackson at their head, at a later period. Then, with respect to the policy of protection, the South, in 1815—I mean the prominent and leading men of the South, Loundes, Calhoun, and others—united in extending a certain measure of protection to the domestic manufactures of the South, as well as of the North. You find, a few years afterwards, that the South opposes the most serious objection to this policy and at least one member of the Union staking upon that objection the dissolution of the Union.

The Lewiston Falls Journal states that our old friend Holman Johnson, Esq., formerly of Vassalboro, but now of St. Albans, turns out from 12,000 to 20,000 dozen shovel handles per annum from his factory, all of which are used in a single shovel factory (Ames') at Easton, Mass. [Ken. Journal.

We easily believe what we wish but have a wonderful faculty in raising doubts against those duties which thwart our own inclinations.

OAK HALL, BOSTON —"Why is it," many persons ask, "that this celebrated FURNISHING DEPOT always has such a crowd of visitors to supply?" It is because Mr. Simmons, of all others, has made use of every means to make his establishment known throughout the country. No man has made a better use of the power of the Press.

A NEW ARTICLE.

BLISS'S COMPOUND COD LIVER OIL CANDY,
For the Cure of Coughs, Colds, Influenza, Hoarseness, Bronchitis, Catarrh, Tickling in the Throat, and all Lung and Bronchial Affections.

THE WONDERFUL curative powers of COD LIVER OIL in all cases of Cough, Colds and Consumption, have been clearly demonstrated by the most experienced physicians in Europe and America. Its peculiar virtues are already too well known to need any description here. The nausea and disgust which many people experience in swallowing the Oil in its usual form of administration is entirely obviated by the discovery of the method of preparing it in the form of a most AGREEABLE CANDY, possessing and preserving all the medicinal qualities of the Pure Cod Liver Oil without its nauseous and repulsive taste The powerful curative principle of this Oil being thus retained, and continued with other healing and harmless ingredients, justly celebrated for their efficacy in the above mentioned complaints, forms one of the most soothing Cough Remedies, and remedial agents for staying the advance of Consumption that has ever been discovered. *This Candy* needs but a fair trial to convince the skeptical of its excellence. Public speakers and vocalists will find it an excellent article for removing obstructions from the throat and clearing the voice.

N. B.—Be particular and enquire for "Bliss's Cod Liver Oil Candy," and observe the signature of the proprietor on each package.

The Compound Bloodroot Syrup,

IS above and beyond all Patent Medicines, for the Cure of Lung Complaints and is the only safe Medicine among all the advertised articles of the day.

It is not drugged up with Opium, or any astringent or injurious substance.

For this reason, the Cough will not abate until the proper time: that is until free expectoration has dislodged everything of an improper nature, from the Lungs. Then will the Cough cease, the appetite return, the fever disappear, the strength be regained, and nature and the healing qualities of the Compound Bloodroot Syrup will perfect the cure. Be not discouraged, if the first few doses do not immediately stop the Cough, increase the fever, and hurry you at an accelerated pace to the grave, as all Medicines *must do*, which operate solely as an astringent or opiate.

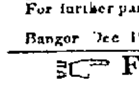
LINCOLN STAGE HOUSE.



THIS House has recently undergone extensive alterations and repairs, and is now open for the accommodation of the public by the subscribers.

They flatter themselves, that they will be able to provide as spacious and convenient apartments as may be desired.—the recent improvements having had special reference to that object.

Private families who may wish to spend a few days or weeks in this village, will be amply accommodated.

The House has, also, been elegantly furnished throughout with new furniture and no pains will be spared by the subscribers to furnish their guests with every thing for their comfort and convenience.

Connected with this House is a large and commodious Stable, which has also been improved and repaired, where may always be found an experienced and faithful Ostler. Horses and carriages furnished for all who may want.

The subscribers tender their services to the public and intend by keeping a first rate House and attending faithfully to their business, to merit a liberal share of patronage.

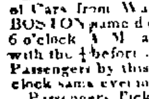
HALLOWELL, MAINE.



THE subscriber respectfully announces to his friends and the public that he has leased this well known Hotel and has made many important improvements and repairs. The house has been newly furnished throughout in a manner that will compare with any other establishment on the Kennebec. It is his determination to make it one of the best resorts for the travelling public that can be found in this section of the country.

Gentlemen with their families and members of the State Legislature will be furnished with superior accommodations. The proprietor hopes by personal politeness and attention to merit the support and confidence of the public. Connected with the House is a good Stable where careful and experienced Ostlers will always be in attendance.

IMPORTANT
TO OWNERS OF HORSES AND CATTLE

DILLOW'S CELEBRATED HEAVE CURE AND UNIVERSAL CONDITION MEDICINE, is universally admitted to be a sure specific in the following diseases in HORSES and CATTLE. *In Horses*—Heaves, Coughs, Colds, Glanders, Horse Distemper, Hide Bound, Worms, Botts, Scurvy and Scab. *In Cattle*—Botts, Staggers, Loss of Cud, Horn Distemper, Black Tongue, Colds, Coughs, &c. On trial these powders will be found to be the best renovating medicine extant for all herbivorous animals, as they operate directly (in small doses) upon the secretive glands and humors of the blood, and when horses and cattle are dull and stupid, and when the hair presents a rough and staring appearance, or while they are changing the coat—at such times a few doses will be found indispensably necessary to bring them into proper condition.

☞Give the article a trial, and it will recommend itself.

DILLOW'S GREEN OINTMENT,

For Founder, Scratches, Mange or Scab, Diseases of the Feet, Saddle and Harness Galls, Swelled Legs and Grease, and for all cases where a healing ointment is needed.

To the Farmer, Dairyman, Wool Grower and Groom this Ointment is an indispensable article—to proof of which numerous certificates of its efficacy could be given, but it is not necessary, as it will stand entirely on its own merits.

☞For certificates and particulars, see circulars left with agents. *LB*

PERFECT HEALTH,
A LIFE SAVED

Most Wonderful Cure of a man 80 years of Age.

In the month of November, 1843 I was attacked with a [illegible] in my great toe, which soon broke out into a running sore. *Mortification ensued* at the [illegible] up to *cut it off*. At this time I was on [illegible] [illegible] the county—every remedy had been tried but without any help. The agony of pain I endured no one can imagine. The sore [illegible] up to my thigh, and half around so [illegible] that my physician despaired of ever being able to use me, and after four months confinement to my bed, finally told me I *must prepare to die*—but as soon as the warm weather came on, he would mortify, and [illegible]. [illegible] up in despair. One of my friends brought me a bottle of HUNT'S LINIMENT, which he said would save the limb. I applied it, but the effect was wonderful, it seemed as if new life was put into me. In using one bottle the whole appearance of my limb [illegible] to its natural color, the pain left me, and with 3 more bottles entirely cured me to the astonishment of myself and the whole neighborhood. *Hunt's Liniment saved my life.* I am 80 years of age, and make this public that every human being may know the value of this great medicine.

Extraordinary case of Hip and Spinal Disease.

SOMERS, WESTCHESTER Co., N. Y., Aug. 27, 1848.

Gen.—It is with sincere pleasure that I make known to you the great benefit I have derived from the use of Hunt's Liniment. About 6 years ago I was injured by a Horse, in the HIP and SPINE so badly that I could not move without the aid of Crutches.

I grew gradually worse for Four Years, although under the care of two successful Physicians who finally gave up my case as hopeless. My Hip gathered and broke, and continued a running sore, and I was suffering with such severe pain that I could not rest or sleep. At this stage of the disease I commenced using Hunt's Liniment, which at once gave me relief. I used about 20 Bottles during the past year, the sore entirely healed, I am free from pain, and only use a cane in walking. I think the use of your Liniment saved my Life and has made me comparatively a well man. My whole neighborhood can testify as to my sufferings and the cure.

Yours truly,
BARNABUS BEADLE.

FROISBURY FALLS, VERMONT, March 19, 1849.

SIR—The demand for your Liniment has increased rapidly of late, it has been used with great success in SPINAL complaints. A neighbor of mine was completely disabled from pains in the back, and the use of a large bottle of Hunt's Liniment completely cured him and he is now in his usual health, this is only one of many cases, that has been cured in this neighborhood.

Yours &c.,
N. S. DORNIN.

BRIDGEPORT, Conn., August, 1848.

Dear Sir—Please send me about [illegible] of a [illegible] Hunt's Liniment prepared by you. I have [illegible] its qualities in a case of Spinal Affection [illegible] much relief has been obtained from the application [illegible].

Dr. Townsend's
COMPOUND EXTRACT OF
SARSAPARILLA,
Wonder and Blessing of the Age
THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This Extract is put up in Quart Bottles—it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known; it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich* blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success.—It has performed within the last five years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past seasons.

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse Expectoration, Pain in the Side, &c., have been and can be cured.

SPITTING BLOOD.

New York, April 28, 1847.

Dr. Townsend—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live.—I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,
WM. RUSSELL, 65 Catharine st.

RHEUMATISM.

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues.

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter:

Blackwell's Island, Sept. 14, 1847.

Dr. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk. I had the most distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully,

JAMES CUMMINGS.

FITS! FITS! FITS!

Dr. Townsend, not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County.

Fordham, August 13, 1847.

Dr. Townsend—Dear Sir, I have a little girl, seven years of age, who has been several years afflicted with Fits; we tried almost every thing for her, but without success; at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful. Yours, respectfully,

JOHN BUTLER, Jr.

FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness.—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring.

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period *may be delayed for several years by using this medicine.* Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject.

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement.

BEAUTY AND HEALTH.

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flushes of loveliness that all admire, but none can describe. This beauty is the offspring of *nature*—not of *powder or soap*. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexion, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it are more than satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr. Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females*, &c., &c., and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c., are injurious to females, as they aggravate disease and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under great obligation. Yours respectfully,

ISAAC W. CRAIN, 106 Wooster-st.

OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market. CAUTION.

Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

McKENNEY'S
COSSACK SALVE!!
An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores, and Cuts and Bruises of all kinds.

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and "Panaceas" that are now advertised as the "*most effectual*" and "*certain cures*" for all diseases indiscriminately to which man or animals are subject.

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing.

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its wonderful medicinal and all-healing properties.

To say, indeed, that we do not expect to realize handsome remuneration for our services, would be alike useless and untrue. But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent.

As we have already intimated, we do not and shall not call to our aid the empty "*puffing of the Press*," or the "bought certificates" of individuals, and shall make use of them only so far as they have been, or hereafter may be, entirely *voluntary and unsolicited.*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties. To say less, were injustice to ourselves—to say more would be superfluous.

Here are some of the many Certificates:—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee. After using many remedies without success I applied some Salve obtained of Mr. A. M. McKenney and continued its application until I had used six bottles, which entirely cured me and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for CORNS, one of my family having used it for this purpose with complete success.

DANIEL SEAVEY.

Dexter, (Maine) May, 1846.

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, I bought 1 box of JONATHAN McKENNEY'S SALVE, which effected an entire cure in less than two months.

SIMEON MARSTON.

BANGOR, June 5, 1846.

Mr. McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and Bruises, and I found it indeed, to my great satisfaction, that it was an invaluable article. I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle, and found it equally beneficial. It can truly be called the All-Healing Salve.

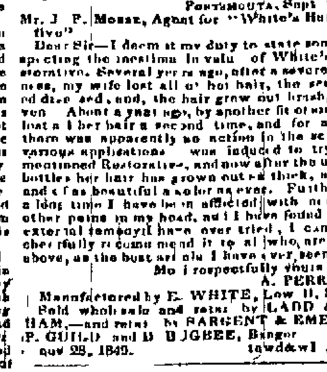
White's Hair Restorative:
A PURELY VEGETABLE COMPOUND,
For Restoring, Beautifying, Cleansing, Softening, and Dressing THE HAIR.



THIS elegant preparation is fast taking the place of all other articles in use, for restoring and dressing the Hair. It prevents the Hair from falling off, promotes its growth, removes dandruff, and restores the natural and luxuriant growth of the Hair in cases of illness. It also removes pain and heat in the head, and is a sovereign remedy for all diseases of the scalp. It gives the Hair a brilliant glossy lustre, a silken texture, and a healthy, vigorous appearance. No Lady's toilet can be complete without this indispensable article.

RECOMMENDATION.

[Certificate of Dr. PERRY, Portsmouth, N. H.]

PORTSMOUTH, Sept. 20, 1849.

Mr. J. P. MOSES, Agent for "White's Hair Restorative."

Dear Sir—I deem it my duty to state some facts respecting the inestimable value of White's Hair Restorative. Several years ago, after a severe fit of sickness, my wife lost all of her hair, the scalp appeared diseased, and, the hair grew out harsh, and uneven. About a year ago, by another fit of sickness, she lost a liber hair a second time, and for a long time there was apparently no action in the scalp. After various applications was induced to try the above mentioned Restorative, and now after the use of a few bottles her hair has grown out as thick, as lustrous, and as beautiful a color as ever. Furthermore, for a long time I have been afflicted with neuralgic and other pains in my head, and I have found it the best external remedy I have ever tried. I can therefore cheerfully recommend it to all who are afflicted as above, as the best article I have ever seen.

Most respectfully yours, &c.,

CONSUMPTION

in all Christian and civilized countries, has caused a larger proportion of deaths than any other malady that afflicts the human family, and, until within a few years, there has not been any *certain remedy* to stay the devastation of that destroyer. But now—

BRANT'S INDIAN
PULMONARY BALSAM

cures very many of the most strongly marked and developed cases of PULMONARY CONSUMPTION—*cures tuberculated cases of ulcerated and diseased* LUNGS—such hopeless cases as were never before cured by any other medicine. So *utterly hopeless* were some of the afflicted persons, as to have been pronounced by *physicians* and friends to be ACTUALLY DYING. Some, who had their burial clothes made, have been cured and yet live, others, who it was said would not live another day, are now well and hearty as they ever were.

It possesses all the cleansing and purifying virtues nearly as powerful and active as the preparation which we call

BRANT'S INDIAN PURIFYING EXTRACT.

The Balsam differs from the Extract, because it possesses *several medications which are peculiarly adapted to, and are essentially necessary for, the cure of*

COUGHS AND CONSUMPTIONS,

and all diseases of a pulmonary nature—such diseases as usually prove to fatal under ordinary treatment, when they attack the

Breast, Throat, Lungs, and Heart.

This BALSAM HEALS AND CURES ULCERS *in the* LUNGS and elsewhere *internally*, as *certainly and easily* as the PURIFYING EXTRACT *cures* and *heals* ulcers *externally*. This Balsam cures NINE *cases of Cough and Consumption* out of TEN, after all other remedies have *failed to do good.*

Thousands of Consumptions

and *Chronic Coughs* abundantly prove its *unfailing efficacy* in such diseases, and its undoubted curative power, and soothing healing properties in the following complaints and diseases, viz: *Spitting of Blood, Bleeding at the Lungs, Pain in the Breast and Side, Night Sweats, Nervous Complaints, Palpitation of the Heart, Cholera Infantum, Dysentery* and *Summer Complaints* in *Children* and *Adults*, and ALL FEMALE WEAKNESSES.

CONSUMPTION.
A DYING WOMAN CURED!

We state this cure, to prove the POWER TO SAVE LIFE, when this BALSAM is used, even after the person is *considered by physicians and friends* to be in *the last stages of disease*—actually DYING—and, in this case SO FAR GONE, that the SHROUD *and* BURIAL CLOTHES *were bought!* For the *particulars* of this case, and the *respectable* and *undoubted proof* of all the circumstances and facts, we refer to our PAMPHLETS. This cure was effected on Mrs. ZIBA DYKEMAN, of *Ballston Spa, Saratoga County, N. Y.* We can prove, beyond a doubt, *many others almost equally hopeless* and *innumerable* cases of *Coughs* and *Consumptions* CURED, which *were pronounced incurable* by SKILFUL PHYSICIANS.

A DOCTOR CURED!

DR. J. W. FRENCH *of Hillsdale, Hillsdale Co., Michigan,* about the 1st of January, 1848, wrote as follows: "I have been in the regular practice of medicine in this place for nine years but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a *Chronic Disease of the Lungs* as to convince me that I HAD THE CONSUMPTION, past doubt. I coughed almost incessant, night and day, and had severe pains and soreness in my chest, side, and breast. I tried the remedies recommended by the most skilful of the profession, all to no effect, excepting the nausea and debility caused by them. I was prejudiced against patent medicines, and have no faith now in them, generally. But I was induced—as an experiment, more than from faith—to try a bottle of BRANT'S INDIAN PULMONARY BALSAM, and I do here acknowledge, for the benefit of the afflicted, or whom it may serve, that the effect of its use on me was the most prompt and salutary of any medicine I ever witnessed the effect of in all my practice. *My cough was immediately relieved,* and in about eight or ten days I was free from cough, soreness of the chest, and pain, and now consider and *pronounce myself* A WELL MAN." Dr. French is now a respectable druggist at Hillsdale.

FITS, FITS, FITS.

Messrs. J. K. LIPPINCOTT & SON, respectable merchants at *Hillsgrove, Sullivan county, Pennsylvania,* wrote to us May 12, 1848, stating, among other BENEFITS which had been derived from the use of BRANT'S PULMONARY BALSAM, that one of their customers had just informed them that her child, which had been subject to FITS *for several years*, was cured by the use of BRANT'S BALSAM.

Would soon be in a Grave.

Mr. WILLIAM D. JENNINGS, a merchant at *Pierpon Centre, Ashtabula county, Ohio,* wrote to us October 2, 1848, and stated a cure of CONSUMPTION which the use of BRANT'S INDIAN PULMONARY BALSAM had effected in Mr. WILLIAM CROCKET, of an adjoining town. He said Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting monster, *Consumption*, had taken fast hold on his vitals, and was so destroying and debilitating his body, that he was a mere skeleton. He was *given up* by his physicians and all friends, as one who would soon *inhabit a grave.* But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of only *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclenched the hand of the destroyer, and restored Mr. Crocket to health, and he is now *a healthy, hearty, rugged man!*

S. D. DANN, Esq., *merchant and postmaster at Jefferson,* an adjoining town, wrote to us about the same time, and *stated* that he was acquainted with Mr. CROCKET, and *testified to his* CURE, *and all the above-named facts.*

Could not Live a Day longer!

Messrs. F. B. CALDWELL & Co., *of Fort Ontario, Oswego Co., N. Y.,* respectable druggists, wrote to us: "We have just heard, through Mr. Whitman, a respectable citizen of this place, of an important cure of *Consumption* which BRANT'S INDIAN PULMONARY BALSAM has produced on the wife of an acquaintance of his, who resides in the town of Palermo, in this county. She had been long confined to her bed, and was so dangerously diseased, that her friends believed it impossible for her to live *more than* ONE DAY LONGER. But, when all other hope utterly failed, she commenced taking BRANT'S PULMONARY BALSAM, and its medical efficacy has raised her from a DYING BED so that she is now *going about and attending to her domestic household affairs and duties.* She acknowledges, and it is very evident, that she is indebted to BRANT'S BALSAM for her recovery from a long, severe and dangerous sickness; and her friends and neighbors consider that medicine invaluable."

RAISED FROM THE GRAVE.

Messrs. PRATT & FOSTER, *merchants of West Cornwall, Conn.* said BRANT'S BALSAM had effected cures of such hopeless cases of CONSUMPTION in their town that now no other cough medicine could be sold there; that *it had raised some as if from the GRAVE*—some that physicians and all their friends said MUST DIE. One gentleman in particular, was *so far gone,* that his physician told him it was *useless to take any more medicine.* He then, *when no hope was left,* began to take BRANT'S BALSAM—GOT WELL—*and is now as well as ever he was!*

Many Consumptions Cured.

Mr. S. H. CLARK, merchant, *Clyde, Wayne county, N. Y.,* wrote to inform us that BRANT'S PULMONARY BALSAM sold readily at Clyde, and said "if the statements of some of our most respectable people, and personal visible knowledge, can be relied on, its medical virtues have cured *many consumptive persons*, several of whom I am acquainted with, who were so hopelessly sick as to be considered, by physicians and all friends, past a possibility of cure, and yet, the facts are, BRANT'S BALSAM has restored them to PERFECT HEALTH."

LUNGS BLED—MUST DIE!

Mr. J. S. TERRY, *merchant, Byron, Genesee county, N. Y.,* wrote, August 24, 1848: "BRANT'S medicine is doing wonders here. It has cured a man of *Consumption* that all the physicians had said *must die.* When he commenced taking Brant's medicine, he could not raise his hand to his head; he *bled at the lungs,* and every symptom seemed to indicate that he must die, but, astonishing to all, he is now able to labor, and rides all over the county. He used *only five bottles.* It has also cured a young lady of *Consumption* in Orleans county, which her father says *no doctor could cure!*"

Mr. MILLER, a merchant of the same place, has certified to the truth of the above statement.

WAS BELIEVED PAST CURE.

Mr. CORNELIUS H. SMITH, merchant, *Collins Centre, Erie county, N. Y.,* January 16, 1849, said: "Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly all sold, and I want immediately another supply, for they sell more rapidly, and *give better satisfaction,* than all the other medicines we have for sale. *The Pulmonary Balsam* has raised a lady here from a bed of dangerous and severe sickness, which all the doctors had given up as INCURABLE. They said she MUST DIE *with a Consumption of the Lungs.* After all had pronounced the case HOPELESS, she commenced taking BRANT'S BALSAM—and now *she is well!*"

CHRONIC DYSENTERY,

and SUMMER COMPLAINTS, *in children* or *grown persons,* cured *without any failure whatever.* Also—

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by that child-destroying complaint, when *teething* in warm weather—*Cholera Infantum,* or what is called SUMMER COMPLAINT—if "BRANT'S PULMONARY BALSAM" be administered to the child. It should, however, in *such cases,* be used in *twice as large potions* as the directions on each bottle prescribe, until the complaint is checked.

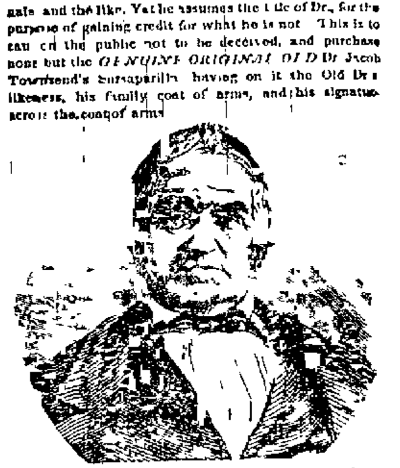
CAUTION EXTRA.

A man by the name of *CLAPP* has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it *GENUINE* Original, etc. This Townsend is no doctor and never was, but was formerly a worker on railroads, canals and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr.'s likeness, his family coat of arms, and his signature across the coat of arms.



Principal Office, 102 Nassau st. New York City.

OLD DR. JACOB TOWNSEND,
THE ORIGINAL DISCOVERER OF THE
Genuine Townsend Sarsaparilla.

Old Dr. Townsend is now about 70 years of age, and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA."* Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful

HEALING POWER.

Knowing, *many years ago*, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this

GRAND AND UNEQUALLED PREPARATION

is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared *on scientific principles* by a *scientific man*. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr.'s Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if *retained* in preparing it for use, produce *fermentation* and *acid*, which is injurious to the system. Some of the properties of Sarsaparilla are so *volatile*, that they entirely evaporate and are lost in the preparation, if they are not preserved by a *scientific process*, known only to those experienced in its manufacture. Moreover these *volatile principles*, which fly off in vapor, or as an exhalation, under heat, are the very *essential medical properties* of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SYRUP." But such is not the article known as the

GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men, women and children. We find it doing wonders in the cure of *CONSUMPTION, DYSPEPSIA, and LIVER COMPLAINT,* and in *RHEUMATISM, SCROFULA, PILES, COSTIVENESS, ALL CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES,* and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from *Indigestion*, from *Acidity of the Stomach*, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in *Colds* and *Coughs*; and promotes easy expectoration and gentle perspiration, relaxing stricture of the lungs, throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus or Whites, Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregularity* of the menstrual periods, and the like; and is as effectual in curing all the forms of Kidney Disease.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies, as *Spinal irritation, Neuralgia, St. Vitus' Dance, Swooning, Epileptic Fits, Convulsions, &c.*

It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion, relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally all over the body, and the insensible perspiration; relaxes all strictures and tightness, removes all obstructions, and invigorates the entire nervous system. Is not this then

The medicine you pre-eminently need!

But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S,

because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES; *souring, fermenting,* and *blowing the bottles* containing it into fragments; the sour, acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mischiefs it produces? flatulence, heartburn, palpitation of the heart, liver complaint, diarrhœa, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven, but an acid substance, which sours and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,

and yet he would fain have it understood that Old Dr. Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's *article!* and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have used S. P. Townsend's FERMENTING COMPOUND.

We wish it understood because it is the *absolute truth,* that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are *heaven-wide apart,* and *infinitely dissimilar*; that they are unlike in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS,

should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases.

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom and vigor into the crushed and broken, and to banish infirmity, that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Heal.

CONSUMPTION CURED!

Dr. ROGERS' SYRUP OF LIVERWORT & TAR
HOPE
FAITH

—AND—

CANCHALAGUA;
FOR THE COMPLETE CURE OF
Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to
CONSUMPTION.
READ! READ!!!

This medicine is just what it is declared to be above. A remedy for the *complete cure* of all those affections of the Throat and Lungs which, if neglected, always end in CONSUMPTION. It is not a worthless, *catch penny article*, made just *to sell*, like many of the common nostrums of the day, but it is a strictly *scientific Preparation*—the original recipe having been furnished by an eminent Physician, (the late Prof. Rogers,) and that still further improved by one of the present proprietors, who is himself a *regularly educated Physician*, a graduate of the University of Pennsylvania. It is composed of the choicest articles in the vegetable kingdom, most of them of long tried value and established reputation, and some of them *entirely new*, particularly the CANCHALAGUA, a plant of *most wonderful* medicinal virtues, lately introduced into this country from California. The Recipe has been shown to thousands of Physicians, who have universally approved of it, and will be shown to any Physician who desires to see it, upon application either to the Proprietors or their Agents. It has been used in *multitudes of cases* and is strongly recommended by *Physicians*, even *Professors* in our Medical Colleges, Ministers of the Gospel, Judges, Lawyers, Merchants, Mechanics, &c.—a conclusive proof that there is no *quackery* or *deception* about it, but that it is a medicine of most uncommon virtue and efficacy.

PAMPHLETS.

As no ordinary sized advertisement can *begin* to do justice to the merits of this article, the Proprietors have embodied in a pamphlet form, the *history* of this Medicine—the *description, nature, &c.* of its principal ingredients—the *effect* they are designed to have upon the human system—and above all the *incalculable amount of good* which it has done. They design to circulate this pamphlet extensively, but should any one be overlooked, they are earnestly desired to call upon the Agents named below, and procure one *gratis*. The *hints* on page 7th may be worth to yourself or family THOUSANDS OF DOLLARS, and it will introduce you to a mass of testimony in its favor, which is perfectly irresistible.

Such being our confidence in its virtues, we are willing to *warrant* the Medicine in *every recent case*, (if used according to the directions,) and where the person is not satisfied that he is not deriving a benefit from it, by returning the bottle within 24 hours' time,

THE MONEY

will be refunded. ☞See page 3d of the Pamphlet.

For sale wholesale and retail by A. L. SCOVILL & CO., Proprietors, at their *Principal Office*, No. 65 Warren St., New York, to whom all orders for the Medicine, and letters relating to agencies, should be addressed, *post paid.*

☞Be sure to ask for *Dr. A. Rogers' Syrup of* LIVERWORT, TAR, and CANCHALAGUA, and let no other be palmed on to you.

Caution.—*None genuine* unless there is on the buff wrapper a *note of hand* signed with a *Pen* by A. L. SCOVILL & CO.

NOTICE.
BOOK BINDING.

I WOULD most respectfully suggest to my friends and those who have usually patronised me, that I still continue in the Binding line at the old stand called the East Side Bookstore and Bindery—now called the East Side Book Bindery, at which place I shall stick out a short time, and shall be most extremely happy to see my old friends and customers bringing in their Periodicals, Music, &c., to be bound which shall be done in a neat and faithful manner and as cheap as any other binder in Bangor, [illegible] 12½ cts per vol.

P. S. Prices to correspond with the times and [illegible] competition. Come out with your prices. Specimens of binding can be seen at my Bindery. Orders from the country punctually attended to.

[illegible] friends and the public generally will please receive my sincere thanks for their patronage during my sojourn in this city.

Yours Respectfully,
W. F. STANWOOD.
